- Moth and mite killer tested and approved by the Minister of Health
- It releases a delicate perfume
- Active principle and long lasting fragrance
- It protects garments and fabric in wardrobe and drawers

ACTIVE INGREDIENT: Tetramethrin 0,03% Piperonil Butossido 0,15% Permethrin 1,5% – Registration n. 20396 of the Italian Minister of Health

DIRECTION FOR USE:

- **Moth repellent action:** Spray thoroughly and uniformly on the garments to be treated from a distance of about 30 cm.
- **Mites repellent action:** Spray thoroughly and uniformly from a distance of about 30 cm. Spray the product uniformly for 20 seconds per square metre. After 1 hour from the treatment, the use of the vacuum cleaner is recommended in order to eliminate killed mites. For very dirty and dusty moquette and carpets it is recommended to draw and/or wash with steam before the treatment.

Warning: Avoid direct inhalation of the aerosol and avoid contact with eyes. Keep away from sources of ignition. No smoking. Do not spray on surfaces where food is prepared, served, consumed or stored. Do not use while eating or drinking to avoid any contamination. After use or in case of contact with the skin wash thoroughly with soap and water. If used in living room or bedrooms ventilate the room well before staying there again. Before using always check the resistance of the fabric on a hidden corner.
