It makes ironing easier

Thanks to its *starching properties*, Renova disentangles the fibres and makes the fabrics *easier to iron*.

It prevents fabrics from yellowing

The *optical brighteners* revitalise the *colours* and get *white* garments back to their original brilliance.

It stiffens fabrics

It restores them to a *firm texture*, to enhance their *beauty* to the utmost.

Anti-odour action

*HygienFresh anti-odour molecules* shield fabrics *protecting* them from dust, smoke and other unpleasant odours.
